STRETCH FILM

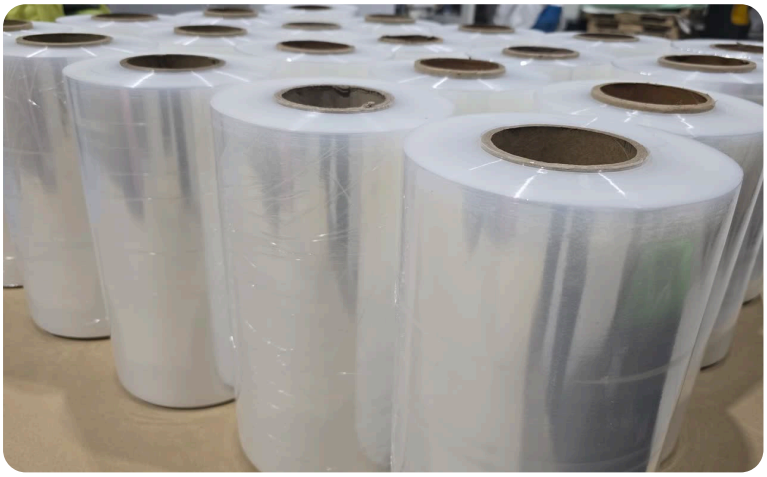

DATA SHEET

Aarya Plastopet

Cast LLDPE stretch film for hand and machine pallet wrapping, made for steady cling, strength and clarity.

ABOUT THE PRODUCT

Aarya Plastopet stretch film holds pallets and bundles tight through storage and transport. It is cast from virgin LLDPE at our Machenahalli Production Unit in Karnataka, India, in hand grade for manual wrapping and machine grade for automatic wrappers. Used by FMCG distributors, textile manufacturers, ceramic and tile transporters and warehouse logistics.

FEATURES

STRONG CLING

Layers hold to each other, so loads stay wrapped tight from dispatch to delivery.

PUNCTURE RESISTANCE

Stands up to corners and edges on heavy or uneven loads.

CLEAR FILM

Labels and barcodes can be read and scanned through the wrap.

PERFORMANCE

- Consistent thickness from roll to roll
- Smooth, quiet unwinding by hand and on machines
- Good load holding through transport vibration and Indian heat
- No reprocessed blends: virgin LLDPE only

TECHNICAL DATA

PARTICULARS	VALUE
Manufacturing process	**Cast film**
Material	**Virgin LLDPE**
Thickness	**12–35 µm (custom 12–50 µm for export)**
Width	**300–600 mm**
Roll length	**200–3,600 m**
Grades	**Hand grade, machine grade**
Packing	**6, 2 or 1 roll per carton**
Colours	**Transparent, white, green, light green, black**

STANDARD SIZES

Hand grade MANUAL WRAPPING

Light, easy to pull rolls for wrapping by hand and bundling

WIDTH	LENGTH	THICKNESS	ROLLS / CASE	COLOUR
300 mm	200–400 m	12–35 µm	6	Green, Light green, White, Black
350 mm	200–400 m	12–35 µm	6	Green, Light green, White, Black
450 mm	200–1,500 m	12–35 µm	2	White, Transparent
500 mm	400–3,600 m	12–35 µm	1	White, Transparent

Machine grade AUTOMATIC WRAPPERS

Long rolls with steady pre-stretch for high-volume wrapping

WIDTH	LENGTH	THICKNESS	ROLLS / CASE	COLOUR
500 mm	1,000–3,600 m	12–35 µm	1	Green, Light green, White, Black
600 mm	1,000–3,600 m	12–35 µm	1	Green, Light green, White, Black

STORAGE AND HANDLING

Store cartons indoors in a cool, dry place away from direct sunlight and heat. Keep rolls in their carton until use and handle by the core. Export orders: custom widths, core sizes, thickness (12–50 µm) and roll lengths on request.

THE WARRANTY

This product is supplied to the agreed specification. Performance may vary with application, machine settings and storage conditions. No warranty is implied beyond our standard manufacturing quality assurance.

WHERE IT IS USED

01

FMCG distributors

Mixed cartons held tight for daily dispatch.

02

Textile manufacturers

Fabric rolls and bales kept clean and together.

03

Ceramic and tile

Heavy, sharp-edged loads held steady on the road.

04

Warehouse logistics

Pallets wrapped for storage and outbound trucks.

HOW TO ORDER

Send the width, thickness, roll length, colour and quantity you need. Prices depend on size, quantity and delivery location, so we quote every order. GST invoice in India; FOB or CIF for export.
